## Professional Summary

I am a frontend developer with 3 years of hands-on experience building modern, responsive, and scalable web applications. Strong foundation in JavaScript, React.js, Next.js, Tailwind CSS, and component-driven architecture. I am adept at translating Figma designs into high-quality interfaces, collaborating across cross-functional teams, and delivering performant, user-centric solutions. A Quick learner with excellent problem-solving and time-management skills.

## Technical Skills

- **Languages**
  **Frameworks:** JavaScript (ES6+), React.js, Next.js, HTML5, CSS3/SCSS
- **Styling:** Tailwind CSS, Responsive Design, Flexbox, Grid
- **Tools**
  **Technologies:** Git CLI, Axios, REST APIs, Figma to Code, Vite
- **Practices:** Clean architecture, Component reuse, Version control, Agile collaboration

## Professional Experience

**Frontend Developer** — Will and Action Consulting  *July 2025 – Present*

- Built a fully functional admin dashboard focusing on intuitive navigation and clean UI.
- Implemented responsive layouts ensuring consistent performance across devices.
- Developed scalable and reusable components, improving maintainability.

**Frontend Developer** — Shopivol
*December 2024 – May 2025*

- Converted detailed Figma designs into production-grade UI with Next.js.
- Improved page performance by optimizing rendering, reducing bundle size, and minimizing re-renders.
- Collaborated with backend and design teams to deliver seamless user workflows.

**Frontend Developer** — RaySolutions
*May 2024 – August 2024 — Remote*

- Developed reusable React components supporting multiple client projects.
- Integrated REST APIs and maintained UI consistency with Tailwind CSS.
- Participated in code reviews to uphold best development practices.

**Frontend Developer Intern** — Stutern
*November 2023 – December 2023*

- Contributed to team-based React projects using modern development workflows.
- Built interactive UI components with smooth animations and transitions.

**Frontend Developer Intern** — HNG Internship
*August 2023 – October 2023* — Lagos
Remote

- Created responsive interfaces using React.js and Tailwind CSS.
- Integrated TMDB and Unsplash APIs for dynamic data rendering.
- Co-developed the HelpMeOut browser extension during team collaboration.

**National Youth Service Corps (NYSC)** — Osun State Ministry of Environment
*May 2021 – May 2022*

- Handled documentation and administrative tasks to support ministry operations.
- Assisted NEMA in coordinating relief and community outreach activities.

**Teacher** — Overcomers College
*August 2020 – April 2021* — Akobo Ojurin, Nigeria

- Taught Mathematics, Basic Science, and Computer Studies for multiple grade levels.
- Designed lesson plans, assessed performance, and supported student learning.

# Education

**ALX Africa** — Nairobi, Kenya
Front-end Engineering Diploma  *Graduated: July 2023*
   **Obafemi Awolowo University** — Ile-Ife, Nigeria
Bachelor of Science in Chemical Engineering
*Graduated: February 2020*

# Notable Projects

- **Movie Discovery App:** React + TMDB API with real-time search and advanced filters.
- **E-commerce Platform:** Built a responsive multi-page store with cart system using Fakestore API.
- **Dynamic Photo Library:** Created animated drag-and-drop interface with smooth interactions.
- **HelpMeOut Extension:** Contributed to UI screens development and API integrations during HNG internship.
- **Tasif Essence:** Created a full-featured e-commerce site with vendor management, product catalog, cart system, and user authentication. Implemented responsive design and integrated payment processing.

# Soft Skills

Team collaboration — Time management — Fast learner — Adaptability — Problem-solving

# Interests

Gaming, Swimming, Technology Research
